This interpreter coming from God, and by God, sustained in testifying to the truth, is for that reason a divine messan-ser or teacher. Rejecting the Pagan and Erasian theories which place this office in outiflow. Eastern exchange has been firm under a good demand.
During the past month Chicago packers have slaughtered 204,800 hogs, against 242,000 for the corresponding period of last year. The visible supply of grain in sight in the States and Canada on the dates named were. March 20th, 38,709,000 bushels; March 22d. 39,800,000 bushels; March 15th, 40,774,000 bushels; March 8th, 42,332,000 bushels. The stock of luminar in the hands of Chicago yard dealers is rapidly decreasing, but now that vessels have commenced to ply between the cast and west shores of Lake Michigan the stock will soon increase. Nayigation on the Illinois and Michigan Canal has been resumed, and there is a fair prospect of liberal arrivals of corn during the present season. Erasian theories which place this office in the civil government; rojecting too the bernam rationalism which will not go outside of man's own individual registor and conscience to find a guide and an interpreter of the moral and divine law; we must chose between the Protestant theory that the Bible is that Divine Guide, and the Catholic ductring of church authority. hat the Bible is that Divine Guide, and the Catholic doctrine of church authority.

First. The former indeed professes to propose an external Guide and Teacher, Bat analyze the system, and you find it miosalism under a disguised name. For it is not what the supposed teacher means that must be accepted; but what agch one thinks it means. Passing then in review. thinks it means. Passing then in review the insurmountable difficulties of this sys the insurmountable difficulties of this system, arising from the questions concerning the inspiration, canon, translation and true meaning of the Book called God's Word, the Bishop examined the three principal texts adduced to sustain this theory that the Bible alone is the divine guide. That passage from John v. 39, 'Search the Scriptures,' &c., he said, could refer to that portion only of the Bible then writton—that is, the Old Testament. The Jews are told to search the scriptures-for what purpose? To find out every revealed truth? No; to find one truth: and from that tact, Protestants draw the board conclusion; if the Bible Lynch, residing at the National Hotel in this place, made a desperate attempt to commit suicide this evening by hanging herself. Had not the landlady appeared she would have been successful. the case is a critical one from strangula-tion. She is the wife of Frank Lynch, who threw his child over the Alleghany oraw the broad conclusion; if the Bible contains one truth, viz: the proof of Christ's claims to be the Messiah, therefore it contains all revealed truth. This is very decitive reasoning. Moreover, when from the propincies the Jews were led to believe Christ to be the Teacher sent from tool, were they still allowed, the privilege of discussing the truth (or possible false-hood) of any doctrine He proposed? Certainly not. That the Bible furnishes molives of credibility for believing the divine mission of Christ's Church, we readily concede; that the Church once proved to who threw his child over the Aleganny bridge at Pittsburgh some months ago, and who now is doing time in the Peni-tentiary for his child's murder. Mrs. Lynch's reason was that she is tired of liv-ing and trouble, Chicago, April 5.—On Monday next the people of Michigan will vote for Judge of the State Supreme Court and two Regents mission of Christ's Church, we readily concede: that the Church once proved to be appointed by God, our Teacher, we are still at liberty to question her teaching, we must deny.

The second and favorite text is from ii Time, it is 1-17. Here a Biskop, one of the teachers in Got's Church is told (what every Catholic teacher believes and acts out that the inspired scriptures, (which are they?) are useful to teach, &a.; and from this our Protestant friends conclude that it is necessary for all the laily to read the Bible. Second. In previous lectures it has been shown that Christ organized a church for the express purpose of teaching all men the truths of divine revelation; and we are willing to test the claims of the Catholic Church to be that divinely appointed teacher, by the marks applied to the Church in the Nicene Creed, which dates from the First General Council in the year 325: "I believe in the One, Holy, Catholic and Apostolic Church." These marks were successively examined, and declared to belong in principle and, in fact, to the Roment of the five story brick building on streets, occupied by the Philadelphia Burring Machine Works of James Smith & Co. and J.
